

This is a SPECIAL ALERT:

The NYS Dental Association has closely monitored all developments with the novel coronavirus (COVID-19).

As we are aware the COVID-19 situation in New York is one of the most serious in the nation. At this time it is highly recommended that dental offices only provide emergency care for our patients; and close for a 2 week minimum. As a professional office we want to be responsible and slow the spread of COVID-19. We will follow this urgent recommendation- **the office will be closed for patient care starting Friday 3/20/2020**. As of now the office plans to **tentatively reopen 4/1/2020**. Dr. Malsch will be available to see emergency patients – a patient experiencing discomfort. The office will reach out to our patients to properly reschedule appointments that were scheduled 3/20/20 – 3/31/20 or feel free to call us Monday – Thursday at 518/273-4766.

This is an unprecedented event in our country and recommendations and guidelines are changing each day. Our goal is to protect all of our patients as well as ourselves to the best of our ability. We wish for all to remain healthy and we will see you in a couple of weeks.

Regards-

Dr. Malsch, Caroline & Stacie
